Case No: N/A

Free Child Safety Seat Clinic

Each year thousands of young children are killed or injured in car crashes. The proper installation and use of car seats will help keep children safe.

The Beaverton Police Department, in partnership with Safe Kids Coalition Washington County, will be offering a free child car seat clinic. The clinic will be held on Saturday, May 6, 2017, at the Beaverton Police Department located at 4755 SW Griffith Drive. Beaverton Or, 97005. The clinic will run from 9:00 a.m. to 12:00 p.m. Please note that the last car will be accepted at 11:30 a.m. unless demand necessitates an earlier cut off time.

The type of car seat your child needs depends on several things, including your child's age, size and the type of vehicle you have. It is important that you read the owner's manual for your vehicle and the instructions that came with the car seat you purchased.

The time to transition your child out of a booster seat and into a seat belt usually comes when the child is between 8 and 12 years old. Keep your children in booster seats until they outgrow the size limits of the booster seats or are big enough to fit properly in seat belts.

A certified technician will help parents and caregivers learn to install and use their child safety restraints properly. No appointment is required – just drop by during the event. Each car seat check will take about 30 minutes.
