Beaverton, Oregon 97008

Chief Ronda Groshong

NEWS RELEASE

Officer Matt Henderson
Public Information Officer
(503) 969-6502

Released: September 06, 2020
Case No: N/A

Average BAC for September Alcohol DUIs was .12%

The Beaverton Police Department is participating in a yearlong National Traffic Safety Campaign. The focus of this campaign is taking impaired drivers off our streets and keeping Beaverton a safe city to travel and live.

Officers were out on targeted patrols for impaired drivers during the month of September and made 34 DUII arrests. During the month of October, officers will continue their efforts to take impaired drivers off the streets of our no refusal city. This High Visibility Enforcement (HVE) detail was paid for by grant funds from Oregon Impact and ODOT. Out of the 34 arrests, 3 people refused to take a breath test and a warrant for a blood draw was granted. The average blood alcohol content (BAC) for alcohol related DUIs where a breath sample was provided was .12%.

The highest BAC was .45% and the lowest BAC was .04%. 8 People had a BAC of .15% or higher. Six (6) drivers were arrested for drug related DUIs.

Drunk driving, impaired driving or buzzed driving all have the potential to claim lives. The men and women of the Beaverton Police Department ask you to please use a designated driver or find another sober ride home.
